S.05.01. – Premiums, claims and expenses by line of business

In paragraph 3 of the general comments: This template shall be reported from a consolidated accounting perspective, i.e.: Local GAAP or IFRS (if allowed as local GAAP) valuation but using SII lines of business. Groups shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.

The wording "financial year" has been replaced by "reporting period" throughout the instructions.

The following items were added to the LOG:

C0200/R0110–R0550	Total	Total for different items for all Lines of Business.
-------------------	-------	--

C0300/R1410–R1900	Total	Total for different items for all life lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35.

S.39.01. - Profit and Loss

The following points were added to the instructions for cell C0010/R0010:

- Figures reported should be year to date (Q2 data contains P/L covering both Q1 and Q2 and Q4 data covers the full year).
- Reporting of data as used in the financial statement is regarded as appropriate under the best effort principle.

S.41.01. - Lapses

Instructions have been updated to reflect answers in the EIOPA Q&A on Regulation:

	ITEM	INSTRUCTIONS
C0010/R0010	Lapse/surrender rate contracts	<p>Number of life (excl. health) contracts (policies, not IFRS 4 contracts, direct business only) fully or partially lapsed or surrendered during the reporting period divided by the number of life contracts at the beginning of the period. The reporting period is defined on a year to date basis. Unit linked contracts should not be considered. However, unitised with-profits which contain elements of guarantees or where the full risk of price changes in the underlying portfolio is not born by policy holders should not be excluded.</p> <p>A partial surrender is considered one surrender. Policies that are premium paying at the start of the reporting period</p>

		<p>and which become paid up during the reporting period should be included in the calculation.</p> <p>The indicator should reflect all life business. Annuity business should therefore be included within the denominator even if they cannot lapse.</p>
C0010/R0020	Lapse/surrender rate volume	<p>Volume (the amount of technical provisions according to the Solvency II balance sheet) of life (excl. health) contracts (direct business only) fully or partially lapsed or surrendered during the reporting period divided by the volume (the amount of technical provisions) of life contracts at the beginning of the period. The reporting period is defined on a year to date basis. Unit linked contracts should not be considered. However, unitised with-profits which contain elements of guarantees or where the full risk of price changes in the underlying portfolio is not born by policy holders should not be excluded.</p> <p>Where material and affecting technical provisions, deferred payments should be included in the calculation. Policies that are premium paying at the start of the reporting period and which become paid up during the reporting period should be included in the calculation.</p> <p>The indicator should reflect all life business. Annuity business should therefore be included within the denominator even if they cannot lapse.</p>
